CALORPLAST
USA

APPLICATIONS

Materials:

- PVC - I
- PVC - II
- CPVC
- PP - H
- PP - R
- HDPE
- HDPE - PG
- PVDF
- ECTFE
- FEP
- PFA
- FRP/Thermoplastic Dual-Laminate materials

Air Pollution Control Systems:

- Fume Exhaust Scrubbers
- Air Washing Systems
- Exhaust Blowers
- Demisting Sections
- Fume Hoods
- Ductwork and Fittings

Plating and Metal Finishing Equipment:

- Processing Tanks
- Waste Treatment Vessels, Baffles and Piping
- Dip Baskets

Liquid Storage and Distribution:

- Chemical Storage Tanks
- Corrosive Chemical Processing Tanks
- Piping and Pumping Systems
- Waste Treatment Vessels

Custom Fabrications:

- Factory Qualified ACROLINE™ Concrete Protective Lining Systems Fabricator and Installer
- Chemical Dispensing Units
- Containment Linings and Coatings
- Laboratory Hoods and Equipment
- Machinery Enclosures
- Splash Guards and Wall Covers
- Storage Trays
- Tank Covers and Lids
- Wet Processing Benches

On-Site Installation and Repair of Thermoplastic Equipment and Systems

BENEFITS

- Fully corrosion resistant equipment and systems
- Ability to directly integrate CALORPLAST Heat Exchangers, insuring system compatibility
- Multiple material fabrication ability to match project requirements for optimal service life
- AWS, DVS and ASTM qualified welders for superb craftsmanship and peace of mind
- Project success insured through concept to completion responsibility and the latest in 3-D design
- Over 25 years experience in high quality thermoplastic design and fabrication
